

# RODRIGO LÓPEZ SORIA

## FULL STACK DEVELOPER

### ABOUT

Innovative professional with a dual focus on web development and DevOps. I possess extensive skills in full-stack development, complemented by a solid grounding in DevOps practices. I excel in integrating development and operations for streamlined project delivery, emphasizing automation, system efficiency, and reliability. With a passion for creating responsive, user-friendly web applications, I am always ready to tackle new challenges and drive innovations in both web development and system enhancements.

### EDUCATION

#### DevOps + Cloud - Ironhack, Remote (English)

Oct-Dec 2023

Ironhack Madrid

- An intensive program covering DevOps and cloud fundamentals: **Linux OS, shell scripting, Git, Azure DevOps** for collaborative code management, and **Docker** for containerization. Embraced **CI/CD** to automate software delivery using Azure DevOps tools. Gained proficiency in orchestrating deployments with **Kubernetes**, managing infrastructure as code with **Terraform**, configuring systems with **Ansible**, and monitoring with **Prometheus** and **Grafana**.

#### FullStack Web Development - Ironhack

Jul-Sept 2023

Ironhack Madrid

- Client-side Development: **HTML, CSS**, responsive design, dynamic front-end scripting.
- Server-side Development: Full-stack **NodeJS** and **ExpressJS** applications with **RESTful APIs** and server-side logic.
- Databases & Advanced JavaScript: **MongoDB** integration, advanced **JavaScript features (ES5+)**, and data management.
- Version Control & Software Architecture: Proficient in **Git** and familiar with both MVC architecture and SPA approaches.
- Front-end Frameworks: In-depth use of **React** for UI component development, state management, and SPA techniques.

#### Master's Degree in Artistic Production

2017-2019

Universitat Politècnica de València

#### Fine Arts Degree
